EXPERIENCE

Graviti (ISUA Solutions Pvt. Ltd.) ↗   May 2023 – Aug 2023
Frontend Developer Intern   *Remote*

- Implemented a major feature **photo-viewer**, where consignees can view the images of the goods transported.
- Improved the efficiency of the code by making the **components reusable** which reduced the loading time of the website
- Tech Stacks: **ReactJS, NextJS, Ant Design**

crackDSA ↗   March 2023 – May 2023
Software Developer Intern (Frontend)   *Kanpur, Uttar Pradesh*

- Indulged with the **Job Search CrackDSA** development which helps job seekers to find new opportunities.
- Developed **category-wise filtration** which improves the user's experience.
- Tech Stacks: **ReactJS, Tailwind CSS**

SKILLS

Languages: C, C++, JavaScript
Technologies/Frameworks: ReactJS, Redux, ExpressJS, MongoDB, Tailwind CSS, Git, Github
Coursework: Data Structures and Algorithms, Object Oriented Programming, Database Management System

PROJECTS

My_Kart ↗ | ReactJs, ExpressJs, MongoDB, Tailwind CSS   **3 Weeks**

- This website is a basic prototype of an e-commerce website that allows users to explore various available products and assemble them in their cart.
- **React JS** allows the smooth rendering and functioning of the website.The use of **Tailwind CSS** makes the design appealing and attractive .
- **ExpressJS** provides authentication, and **MongoDB** is used to store the data of the users and the products.
- Live site here

the_Khabri ↗ | ReactJs, Tailwind CSS   **2 Weeks**

- The web application software the_khabri provides its readers the insights into the happenings around the globe to be aware of. A phenomenal API provides the users with category-wise news that allows readers to read the news of their interest.
- The use of **ReactJS** enhances the scalability and flexibility of the website, and **Tailwind CSS** makes the website fully responsive and mobile-friendly.
- Demo Video
